

TRANSFER DOOR

The « transfer door » allows the guiding of animals and is fixed under a wheeled trolley. Firmly fixed on a L shape rail and equiped with an anti-lifting device, the « transfer door » is an essential cattle handling safety equipment.

OUR « TRANSFER DOORS » ARE ALSO AVAILABLE IN MOTORIZED VERSION WITH REMOTE CONTROL.

Welded Construction – Steel Quality S235 – Hot Galvanized Finish according to Standard EN ISO 1461 2009
