

Ø49 & Ø42 7 BARS REINFORCED MIXED RACES AND FENCES

Cattle 7 bars doors and fences are designed to meet the needs for handling fluidity, ease of operation and robustness. The design of the 7 bars mixed pen fulfills animal welfare requirements and offers accommodation for all kinds of animal : cattle; sheep; goats; pigs, equines. Combined with the additional safety equipment and an expert process, the 7 bars fence is required for multi-species livestock auction markets.

You may also consult the documentation concerning additional equipment developed by NORMANDIE STABULATION to ensure safety, animal welfare and productivity: Single or double corridor crossing; remote control for manual or pneumatic doors; roller doors and man doors.

Welded Construction - Steel Quality S235 - Hot Galvanized Finish according to EN ISO 1461 2009
