

PIGS PEN

Pigs pens are designed and produced to ensure animal welfare and handling fluidity. The structure of fences and doors is made of stainless-steel and honeycombed panels of recycled polypropylene, 50mm thick: this set is rotproof, stainless and easily cleaned. Pens are fitted with mist ramps and watering teats.

Welded Construction - Steel Quality S235 - Hot Galvanized Finish according to EN ISO 1461 2009
